

T17. Replacement of Bins – Residential and Commercial Policy

Policy Objective

To provide a guide for the replacement of damaged/missing kerbside collection bins and the requisition of additional bins.

Policy Statement

Residents with damaged or missing bins may obtain repairs or replacements from the Shire. Replacement bins and damaged components will be replaced free of charge.

To obtain a replacement for a missing bin, a statutory declaration and application must be made, and a police incident number provided. If an additional or replacement bin (MGB) is required it must be obtained from Shire of Dundas contacting us on [\(08\) 9039 1205](tel:0890391205) or shire@dundas.wa.gov.au

Additional bins

Additional bins or services can only be provided with the written consent from the property owner, strata manager or the managing agent. Written consent must include complete address details and a full description of the additional services required. Additional bins are only available for a fee as per the Shire's Annual Fees and Charges Schedule.

To request a new or replacement bin please use a [Request Additional or Replacement Bins](#) form. All bins remain the property of the Shire of Dundas.

Handling of bins:

Residents are required to maintain their bins in safe, clean and tidy condition. On the collection day, bins must be positioned by the road kerb (without encroaching road) with the lid fully closed and no rubbish or waste scattered around the bin.

Should there be any rubbish scattered around the bin, the Shire has right to have them immediately removed at the time of the collection and charge the resident a fine and the time cost of cleaning. See the Schedule of Fees and Charges for details of applicable fines.

Policy Reviewed October 2020
